My foot is on the pedal givin' it the juice  
I could slow down and turn around but it's no use  
I can't ignore the pressure, pounding in my brain  
This little voice inside me driving me insane  
Took my dream finally put it in flight  
Might be a little bumpy I'm still getting it right

Flyin' blind. solo on a mission, relyin' on total intuition  
I don't mind working without a net if I can leave this  
world  
free of regret  
There comes a time in every life when you say goodbye  
to  
caution  
I don't need you tonight... flyin' blind

I use to be the safe one, feet upon the ground  
I'd never get my hopes up, in case they let me down  
I'd hold back my emotions, never let'em start  
Guess you could say I was careful with my heart  
Everything together, neatly in it's place  
Now here I am this wild man, the wind on my face

Flyin' blind. solo on a mission, relyin' on total intuition  
I don't mind working without a net if I can leave this  
world  
free of regret  
There comes a time in every life when you say goodbye  
to  
caution  
I don't need you tonight... flyin' blind

Whoa. I've been waiting a lifetime  
Oh. for the right place, the right time to fly

My foot is on the pedal, pushing through the floor  
The brake is disconnected I don't need it anymore  
I'm whistlin' past the worry, drivin' down the doubt  
This miracle inside me, I'm gettin' it out  
It's up to me now and whatever I do  
Look out world I'm a comin' on through

Flyin' blind. solo on a mission, relyin' on total intuition  
I don't mind working without a net if I can leave this  
world  
free of regret  
There comes a time in every life when you say
