How you got my feelings going outside of my house?
Your fingertips move slowly towards me while no one is
around.

I want to say lets get right to this but you dont want to
rush.

I make my move and you back off I guess I lost my
touch.

You and me together always and forever.
I must be insane cause you and me will never.
Ill go home instead cause you wont give a chance.
Guess you and me weren?t meant to be together
anyway.

And you, you turn away from me.
I feel a little bit discouraged but I try hard to never
make a scene because Im a man with many faces and
Im willing to try to make it here together. Work
ourselves until we've accomplished everything and
everyones happy. But I know you won?t give it to me.
So Ill just stay right here and keep on trying to make
you love me.

You and me together always and forever.
I must be insane cause you and me will never.
Ill go home instead cause you won?t give a chance.
Guess you and me weren?t meant to be together
anyway.

Your scent, your stare, the warmth between our bodies.
The way you stay just close enough to keep me wanting
you.

You and me together always and forever.
I must be insane cause you and me will never.
Ill go home instead cause you won?t give a chance.
Guess you and me weren?t meant to be together
anyway
