"Sacrifice"

They saw I've got to die to keep my country free, but
there's no freedom in death. I'm not free to refuse. I'll
find myself behind bars. I don't want to sacrifice my life
just so we can keep on dying. I don't want to sacrifice
my life just so we can keep on killing. I don't want to die
with a bullet in my head. I don't want to kill for your
bullshit war. I don't want to die with a rifle in my hands.
I don't want to sacrifice my life just so we can keep on
dying. I don't want to sacrifice my life just so we can
keep on killing.
