Danger To The System
"Take Me Away"

as i sing these songs
and i write these words
take my hand so i don't say too much
take this song, and take these words
away, take it away

i don't know what will come
but i do know now
is some way and some how we will fly
we will...

as i scream these chants
and i play these chords
keep me warm so i don't get too cold
and take me away, and take this day
away, take it away

i don't know what will come
but i do know now
is some way and some how we will fly
we will...

and i don't know much but i know
this will happen it will, we will fly

i don't know what will come
but i do know now
is some way and some how we will fly
we will...
