the time has come, get on the street!
everyone can you feel the heat?
don't be afraid, afraid of change!

it's time to take, take the streets
it's time to end, the corporate elite!

raise your voice, we must impeach
its your choice, we can be free
don't be afraid, afraid of freedom!

it's time to take, take the streets
it's time to end, the corporate elite!
why not here? why not today?
you can be free, just make a change
don't be afraid, afraid of revolution!

it's time to take, take the streets
it's time to end, the corporate elite!
