All over Shanghai market  
Put up the, holding wood  
All the way

No one is quite so different  
People who, Understood  
Enemy

The king and queen were sleeping  
Industry, Ecstasy  
Sympathy

Sympathy

I walk the road today  
Across the valley and I won't stay  
I will miss this  
Land and this promise

I'm streaming next to you  
I won't believe it, Is it really true?  
When they say you should  
Kill for your country  
Kill for your country

I've got three kids to feed  
Fine woman and a need to speak  
Far away from this  
Land and its promise

I want to talk to you  
I need a peace that I wish I knew  
Time to leave and go  
Kill for my country  
Aah...Kill for your country

Hold me down now, hold your fire  
Not now folk that we inspire  
Turn around and hold your fire

Shake 'em all off, Make-belief

Control the line, just let me be  
We're all just make-believe

Hold a child, meet the man  
Bring 'em all on to the grave  
Barbershop and a close shave

Seen the goons, now, seen my chances  
Running, from our enemy still  
We are soldiers, we ain't dying yet

Run 'em down, run 'em down  
Hold your fire, Hold your fire  
Run 'em down, run 'em down  
Hold your fire, Hold your fire  
This is my message to you  
This is a tale of the tomb

Run 'em down, run 'em down  
Hold your fire, Hold your fire  
Run 'em down, Run 'em down  
Hold your fire, Hold your fire  
Why can't we make it alone  
Shake off the smooch on the phone
