Close to my skin, I'm falling in, someone who's been
Sittin' by the phone, I'm left alone in another zone
John says to live above hell and my will is well
No one is waiting for me to fail and my will could sail,
yeah

It's such a waste to be wasted in the first place
I want to taste the taste of being face to face with
common grace
To meditate on the warmest dream and when I walk
alone
I listen to our secret theme

Your solar eyes are like nothing I have ever seen
Somebody close that can see right through
I'd take a fall and you know that I'd do anything
I will for you

Sailin' for the sun 'cause that there is one that knows
where I'm from
I care for you, I really do, I really do
Come closer now, so you can lie right by my side
Sit alone in the sun, I wrote a letter to you, I'm getting
over myself, yeah

Your solar eyes are like nothing I have ever seen
Somebody close that can see right through
I'd take a fall and you know that I'd do anything
I will for you

Your solar eyes are like nothing I have ever seen
Somebody close that was made for you
I'd take a fall and you know that I'd do anything
I will for you

Close to my skin, someone who's been, I'm a falling in
Disasters are just another star falling in my yard
John says to live above hell, my will is well
Long to be with someone to tell, I love your smell
