Looks to me like heaven sent
No lullaby kid no five percent

Anyway you want to cut that cake
She's dyin' from the likes of
abandonment

Lost in the valley without my horses
She needs somebody to hold

It looks to me like heaven
Sent this for your roughest night
She looks to me
She looks to me alright

Who's going to take you home
And hold you when things aren't so bright
She looks to me
She looks to me alright

It's a long walk down those tracks
It's a dirty walk in
It's a dirty walk back
Gonna learn awe way too much
Shootin' dope in the back
Of a Cadillac Jack

Slow down the road to my back 40
She needs somebody to hold

It looks to me like heaven
Sent this for your roughest night
She looks to me
She looks to me alright

Who's going to take you home
And hold you when things aren't so bright

She looks to me
She looks to me alright

Down in the South seas

Give me your mouth please
Resuscitation
Is the way i find these
I give you major
You gave me minor
Don't fade away
Like an ocean liner
Now

Lost in the valley
Without my horses
No one can tell me
What my remorse is

God made this lady
That stands before me
She needs somebody to hold

She shows the world up with a smile
And then she throws the fight
She looks to me she looks to me
All right

Down on the bathroom floor
She's searching for another light
She looks to me she looks to me
All right

It looks to me like heaven
Sent this for your roughest night
She looks to me
She looks to me alright

Who's going to take you home
And hold you when things aren't so bright
She looks to me
She looks to me
