I feel the rain fall  
Down my back  
I'm going back  
To my place of work  
To get things done  
To get them right  
But i'll mess them up  
And i always do  
Buried in words about you  
This year, oh what a year  
I layed around  
Just feeling down  
And from our happy room  
I watched the seasons as they flew  
And then when christmas came  
I layed my head to rest in chains  
Cause with my finished work  
I turn my head back  
Still didn't work  
And i put it to bed  
You often swore to find me dead  
Too many times enough  
To start again  
To give it up  
And then the morning came  
Til i felt day  
Til i'm awake  
Cause with my finished work  
I turn my head back  
Still didn't work  
I feel the rain fall  
Down my back  
I'm going back
