Give her a sign
She needs someone new
She's stuck in the middle
She don't know who to do
That's 'cos she's done you and you and you
'cos she's a cross town lover
Don't need any other way to get her high
She's gonna get you one way or the other
'cos you are a guy
This whole town
Had her on her knees
So she's packing her bags
She's off to Helsinki
But pretty soon she'll be in Tampere
'cos she's a cross town lover
Don't need any other way to get her high
She's gonna get you one way or the other
'cos you are a guy
She's a cross town lover, cross town lover
