Say you'll never know
You'll listen to the facts
And watch your feelings grow
I'm talking to you
Yeah, I'm talking to you
Say you got to go
But where you go you know you'll always
Need so much more
I'm talking to you
Yeah, I'm talking to you
It isn't any wonder we still try
It isn't any wonder we still try
Say you've had too much
But you haven't got the sub
To show your friends of such
I'm talking to you
Yeah, I'm talking to you
Say you've seen enough
But where you go you know
you could have seen so much more
I'm talking to you
Yeah, I'm talking to you
It isn't any wonder we still try
It isn't any wonder we still try
Your just wasting your mornings
Planning what to do in the afternoon
We're just all getting greedy
But its a long, long road
To walk alone, to walk alone
It isn't any wonder we still try
It isn't any wonder we still try
