I'm so sick of being hated  
All of this is complicated  
I just want a chance to prove  
I did nothing to deserve this  
Pain hidden within the surface  
I've got nothing left to lose

It's the end

Stories twisted around  
I'll just keep on falling down  
Still don't know where to start  
Everything has fallen apart  
Wasted lives and memories

There is no need to pretend  
That you still want to be my friend  
Just tell me the truth this time  
Sick of wasting every day  
I'm waiting 'til I move away  
'Cause there is just no hope left here

It's the end
