we found together by chance my friends  
because our music made us dance  
our minds changed because of you  
we learned so much on our common tour  
it was the summer of '98  
such a long time we had to wait  
five weeks that we will never forget  
the night were days; the days ended late  
we had to wait for the start of the following night  
we came with you for holiday  
15 hours until marseille  
what's the reason you've stopped to play?  
a real mourning  
stay, stay the same old way  
there's just one thing that we can say:  
"merci beaucoup a vous de marseille"  
what we are is owed to you  
thanks for all and see you soon!
