don't waste your time - "judge"-
for me it's prime
to feel and understand this crime
not you, i hope you will tell me the truth
is the one who's got something to proof
a gap; wrong interpretation as for a cause;
for me it's no excuse
it would never be controlled
so you can't understand - the code in your hand -
why i just don't see the guilt
don't waste your time - "judge"-
for me it's crime that you want
to cheat a friend of mine
justice ain't no guaranty -
if you retain the service of an expensive attorney
it's a question o rank in society
