They told me what I have to...
this would just start to get ridiculous
Whatever - whenever - A moral matter?
They prevail our life control
So do you think is this ok?
Another freak show in these days - Time for us to say:
Deep down we are full of fears
Tied up and well closed
A secret companion as it is supposed
Politics of Hate
Unit of die hards
The biggest risk of all is our lack of ambition which
forces us to fall
Your cheating brings us back to life
Save for one: It's my last line and it's
time for us to say:
Politics of hate :.
How can you follow up your plan
Politics of Hate
Or just pretend to do so?
Unit of die hards
But listen:
We can't beat the man by playing his own game.
