I'm saving my time by losing it  
I'm saving my time by waiting for it  
I'm saving my time  
I'm saving my time by hoping for it  
And I'm saving my time by not knowing it  
I'm saving my time  
Restless hours, a faded flower  
Is this a field that I can't till?  
A thousand dreams to fulfill  
I'm lying on my bed  
Yes, I'm lying on my back and I've got nothing to  
devour  
No, no style, non-place, transparency?  
Are we in quest of absolute zero?  
Don't start from nowhere; step one was done  
We draw potent inspiration from  
Tra-di-tion is the fucking parasite!  
Past, present, tomorrow!  
No, no style, no place, transparency?  
Are we in quest of absolute zero?  
Wasting my time by losing it  
Wasting my time by waiting for it  
I'm wasting my time  
Tra-di-tion is the fucking parasite!  
Past, present, tomorrow!  
No, no style, are we in quest of absolute zero?
