Excuse for everything is basic human nature  
The way it was, this way we go...  
It drives me crazy  
Millions can't be wrong  
Herd instinct at it's best  
Millions have been wrong Ha, that was a funny thing to  
say  
I should be old enough to know better:  
Bragging of familiar facts? But here comes the  
avalanche  
Sweeping along  
Those mindless millions  
that all have been wrong  
Join this party - turn to the other side  
Non-with-standing? Here comes the avalanche  
If only we can bring the evidence  
Words are cheap but powerful  
So try to be careful  
Wasting this big mouth for such a small talk  
Shy-Hollow-Restrained  
Don't play this game:  
THAT was a funny thing to say
