Are you alright
Your hands are cold
I'm not making use of time i stole
It's not like you to fall asleep
When i'm not here

You're suffering
You're suffering

Last chance to get this right
And hopes just for tonight
To wait this out
So patiently (2x)

I'm not alright
My mouth is dry
You're not makin' sense of words i write
Its not like me to lay awake
When you're right here

I'm suffering
I'm suffering

Last chance to get this right
And hopes just for tonight
To wait this out so patiently (2x)

To wait this out so patiently
I can't forget you
I will forgive you

Last chance to get this right
And hopes just for tonight
To wait this out so patiently (2x)
