Take your lonely words
And the lipstick that you smeared
Moments seeking
They photograph our lives

Take it still like the air
Your hands lock in
Cool and bare
And still i pose
And still i pose

I tried to second guess you
As i touched the ground
I can't wait this through
To see you

You're tasteless and forward
And i can't take my eyes off you
It's all she said
To you

You're tasteless and forward
And i can't take my eyes off you
It's all she said
To you

A night of regret
And you're all alone
I patiently await
I patiently await

Your eyes staring
At the glowing sky
It takes away tonight
It takes away tonight

I tried to second guess you
As i touched the ground
I can't wait this through
To see you

You're tasteless and forward

And i can't take my eyes off you
It's all she said
To you

You're tasteless and forward
And i can't take my eyes off you
It's all she said
To you

It's all she said
To you

Check your error
Load your gun
It's all she said
And still i pose

I can't take it
I can't accept the things you know
I'll see you lie

I can take
I can accept the things you know
I can tell you
To see you

You're tasteless and forward
And i can't take my eyes off you
It's all she said
To you

You're tasteless and forward
And i can't take my eyes off you
It's all she said
To you

It's all she said
Check your error, load your gun
And still i pose
