Your a faker,
and you know it,
You've got it all down,
Your a faker,
and you've shown it,
To the world around
(repeat)
You stay sorry for one more day,
actions never change,
you say you are free,
and yet you've remained,
Shadowes hide your face,
Your a taker,
and you know it,
lying to get around,
Your a taker,
The way its goin',
Screamin' when tim runs out,
You were made to know God,
In this lifetime,
Will you see before its too late?
This is what I pray:
Need a Savior (repeat 2)
Your a faker,
and you've shown it,
to the world around,
Need a Savior (until end)
