When the world had gone out in vain  
Ev'ryone was honkin' like a train  
You had to Adam bomb the state  
Cause I can't keep up, can't keep up, I can't keep up.

All I need is everything gone green  
Then I'll see how my world became me  
Baby, it's not what it seems  
I can't keep up, I can't keep up, can't keep up.

Now we'll learn that it's pourin' sixty feet of snow  
It's negative thirty in summer  
That's a shame  
I can't keep up, can't keep up, I can't keep up.

All I need is ev'rything gone green  
Then I'll see how my world became me  
Baby it's not what it seems  
I can't keep up, I can't keep, can't keep up.

Now it's bookin' down  
Oh my lord  
I'm creamin it down!

All I need is everything gone green  
Then I'll see how the world became me  
Baby it's not what it seems  
I can't keep up, can't keep up, I can't keep up.

Sometimes it's your birthday  
All to me  
When you're never there for me  
All to me  
I can't keep up... (Skip it all)

All I need is everything gone green  
Then I'll see how the world became me  
Baby, it's not what it seems  
I can't keep up, I can't keep up, (Skip it all double time)  
All I need!
