Anger flows through me  
Ignited by frustration caused by you  
Every heartless word uttered  
Another drop of my life on the floor

Every caring advance  
Deflected by your shell  
Every heart felt emotion  
Forced back inside

[Solo: Foley]

Clinging to every word and hope  
Only to find contradicted  
Desperately trying to reach you  
Destroying every wall to find another

{trip at the brain}

[Solo: Wu]  
[Solo: Ian]

Held in a cage of your words  
Lost confused and helpless  
Feeling hatred for you  
And disgust with myself

(ode to thrash metal)

[Solo: Ian]  
[Solo: Wu]
