

## RED9 "Last Mistake"

I've worked so hard to come this far  
Does that mean anything at all?  
I stoked the fire, I took control  
And now you know I can't give it up

A welcome disease  
Force me on my knees  
In deeper, now I feel the squeeze  
I need to scream out  
While drowning in doubt  
And this, the last mistake I'll make

I wonder why it passed me by  
And how you make it look so easy  
I'm underneath it all  
I try to read the scrawl in front of me  
But I can't quite make it out

A welcome disease  
Force me on my knees  
In deeper, now I feel the squeeze  
I need to scream out  
While drowning in doubt  
And this, the last mistake I'll make

That I'll make, that I'll make and you can hold me to the  
fire  
I'm on fire, I'm on fire and there's no stopping this  
course

I've tried so hard  
I've worked so hard  
And now you know I won't give it up
