"Lay To Waste"

Visit "[Lay To Waste](#)" on MotoLyrics.com

After all we will become the dust
Ignore the signs when they begin to rust
Lost the way along a well lit path
Dress it up to sell it off
Drink the pain right from the trough

I run and you say hold on

When all's said and done
What will we have won?
Nothing is for free
Will you follow me
I'll be back again
To lead you to the end
When all's said and done
I'm the only one

A dying man is all the proof we need
Growing from our mind just like a weed
Lay to rest while we lay all to waste
Bend the truth and break it off
Drink the pain right from the trough

I run and you say hold on

When all's said and done
What will we have won?
Nothing is for free
Unless you follow me
I'll be back again
To lead you to the end
When all's said and done
I'm the only one

I'm willing, am I the only one
I'm willing, but I'm the only one
