If I could make sweet love to you all through the night  
All the problems of my world would slowly fade away  
How can I be sure that everything you say  
Isn't just another line designed to steal my heart away

CHORUS

Just let me hold you now  
I wanna feel you in my arms  
Let me unfold you now, endlessly  
Just let me hold you now  
Friend to friend, lover to lover  
Hold me now

I feel your touch and it stirs me deep inside  
And still I need to know there's more than passion in  
your eyes  
Oh girl, you are much more than something physical,  
can't you see  
You don't have to stay the night, baby tell me what you  
want from me

CHORUS

Oh, just let me hold you now  
I wanna feel you in my arms  
Let me unfold you now, endlessly  
Just let me hold you now  
Friend to friend, lover to lover  
Hold me now

If we make love  
I need you baby  
I wanna lose myself to you  
Rise so high above  
I don't wanna be alone tonight  
Don't leave me now

I just want you to  
Hold me now

I wanna feel you in my arms  
Let me unfold you now  
Baby, hold me forever  
Just hold me now  
Never let me go  
Let me unfold you, endlessly  
Just let me hold you  
Friend to friend, lover to lover  
Hold me

Don't ever let me go, no  
Hold me now
