I can't believe we met like this
Is it just coincidence
I had a feeling I'd be seeing you again
Your every bit as beautiful as the last time we met
When you told me, you were leaving, and going back to
him
How I wish that I could tell you, it's all in the past
But I was never good at lying, and baby since you
asked

I don't want to hear that song again from the night we
first met
I don't want to hear you whispering, things I'd rather
forget
I don't want to look into your eyes, cause you know
what happens next
We'll be making love and than
I fall all over again.

I can't begin to tell you, just how sorry I am
That the man you built your dreams around, just broke
your heart again
I think I know the feeling
Cause I once loved you so much
That I swore I'd rather die than live a day without your
touch
If I held you in my arms you know, I'd never let you go
But this ain't the time or place to get emotional

I don't want to hear that song again, from the night we
first met
I don't want to hear you whispering, things I'd rather
forget
I don't want to look into your eyes, cause you know
what happens next
We'll be making love and than
I'd fall all over again

I was crying when you kissed me
Than you walked out that door,
Ohhh
You were always such a mystery

I still dream we're making love
Than I stop myself because

I don't want to hear that song again, from the night we
first met
I don't want to hear you whispering, things I'd rather
forget
I don't want to look into your eyes cause you know what
happens next
We'll be making love and than
I'd fall all over again

I fall all over again
