Come catch me babe, I'm falling.
Come save me baby, I'm calling.
Come and be with me babe, come as you are.
Come and catch a fire babe, don't let me fade away,
don't let me fade away.

Come catch a feeling, it's electrifying me.
Eyes wide open, I'm dreaming.
Free falling baby, awake before I'm down.
Free falling baby, awake before I'm down.
Awake before I'm down...
Awake before I'm down...

Come touch me baby, I need to be loved.
Come hold me babe, I need to feel loved. I need to feel
love
Come catch a fire, don't let me fade away.
And Come catch a fire babe, don't let me fade away.
Come catch a feeling, it's electrifying me.
Eyes wide open, I'm dreaming.
Free falling baby, awake before I'm down
Free falling baby, awake before I'm down
Come and touch me baby, I need to be loved
Come hold me baby I need to feel loved

Im in love, in love, in love, in love, I'm in love, I'm in
love
Im in love, in love, in love, in love, I'm in love, I'm in
love

Come and touch me baby, I need to feel loved,
and come hold and be babe, I need to feel loved,
I need to feel loved, I need to feel loved,
I need to feel loved, I need to feel loved.

I'm in love, in love, in love
I'm in love
I'm in love, in love, in love
I'm in love
