In the dark, we will make our mark
In the dark, can't you realize?
We will make, we will make thieves of you all
In the dark, we will terrorize

Please forgive us while we take you for a fool
Lay your mind at ease; there are no exceptions to our
rule
Sorry not this time
Give us one good reason why we shouldn't take your
life this time as well.
Sorry not this time you're going to die

In the dark, we creep around the wall
So sorry, I will try to sympathize
On your knees, "not this time you scream"
Please forgive us while we take you for a fool
Lay your mind at ease; there are no exceptions to our
rule

Sorry not this time
Give us one good reason why we shouldn't take you life
this time as well.
Sorry not this time your going to die

Please forgive us as we take you for a fool
Search deep inside and,
Give us one good reason why we shouldn't take your
life
