"Remember The Day"

Visit "Remember The Day" on MotoLyrics.com

It all started when we were we used play fight and then
it turned real. But I always loved and I always will
because you are my brother my flesh and my blood
even though I was horrible I always wanted to be
friends and if I could go back and put things right I
would but I can't Remember the day when we used to
play remember the night when we used to fight
remember the day, remember the day never forget
that day Mum used to tell me be nice to him coz he
might be gone the next day and she right I respect her
for that I respect you for you. I liked it when we were
friends I liked when we were happy together and if I
could go back and put things right I would but I can't
Chorus I miss you so much I never thought I would I
thought I'd care but you meant the world to me and
now your gone and if I could go back and put things
right I would but I can't Chorus I miss you
