Living a day at a time be the rhythm that fit  
That way Iâ€™m always quick to predict a glitch  
Building a house brick by brick and bit by bit  
Living a day at a time, a day at a time  
Living a day at a time be the rhythm that fit  
That way Iâ€™m always quick to predict a glitch  
Building a house brick by brick and bit by bit  
I light a thick spliff get my wit in pitch

Time goes by so fast I lose hold of myself / Need  
something to cool me down,  
or my motor will melt / Totally set on not getting old yet  
/ but time will  
catch up with you like an old debt / Still... hurry spells  
worry with a W,  
you heard me? Itâ€™s too early, my world be looking all  
blurry / Listen, wait  
a minute / I got a job that I aim to finish / ainâ€™t got  
time for no lazy  
business / Iâ€™m losing crazy minutes the way I sleep all  
day and shit /  
Professional time waster / sitting here wondering why  
the earth keep  
worshipping that almighty paper / Quick, fast, world on  
the move / Think of  
yourself, no room for the merciful / Gotta be versatile /  
Being everywhere,  
doing everything, at the same time / Donâ€™t waste time  
on that lazy state of  
mind now / All cats ainâ€™t got nine lives now / Itâ€™s now  
or never so better  
just get it together / You ainâ€™t gone be living forever /  
I know this / The  
clock stay ticking and I canâ€™t control this / Canâ€™t be  
living at a low risk  
/ so I might as well roll this / Oh yes / reminisce on  
some old shit / my  
flow is reaching your sofas / all of my mental soldiers.

Living a day at a time be the rhythm that fit  
That way Iâ€™m always quick to predict a glitch

Building a house brick by brick and bit by bit  
Living a day at a time, a day at a time  
Living a day at a time be the rhythm that fit  
That way Iâ€™m always quick to predict a glitch  
Building a house brick by brick and bit by bit  
I light a thick spliff get my wit in pitch

I be telling you listen I donâ€™t lie  
Time always be keeping a close eye  
You donâ€™t believe me then you take a nosedive  
Slow down, donâ€™t you know now  
Chasing euros or dollars or then you chase pounds  
Hurry, hurry you keep up the pace now  
You ainâ€™t really with it I see it in your face now  
Slow down, donâ€™t you know now

Now all sorts of folks die / Think Iâ€™m lying then ask the  
Most High / Open  
your mind / câ€™mon wake up open your eyes / Realize  
you taking a nosedive / I  
wonâ€™t resign, wonâ€™t recline / Kinda the same as time  
wonâ€™t rewind / But Iâ€™m  
a relax / Â‘cos if you thinking like that then your stress  
will multiply / I  
suppose Iâ€™m saying I ainâ€™t scared to die / Â‘cos the  
next place might be the  
best place, still I donâ€™t waste time estimating / So get  
your bets placed in  
/ Itâ€™s the game of life, for life / all day, all night /  
Remain your fight  
and you be set for escalating / Guys defecating by  
paper chasing, I ainâ€™t  
got time for that / I need a real woman I ainâ€™t got time  
to mack / Spending  
half of my time in a cold climate / Timeâ€™s back / I was  
looking for time but  
now I know where timeâ€™s at / Whereâ€™s that? / Itâ€™s  
right here between  
yesterday and tomorrow / you follow? / Time will go by  
whether you dating a  
model / or you got problems and everyday you escape  
with the bottle / I  
donâ€™t know why, though / I just glide slow through my  
life / time for  
happiness, time for sorrow / Living a day at a time...

Living a day at a time be the rhythm that fit  
That way Iâ€™m always quick to predict a glitch  
Building a house brick by brick and bit by bit  
Living a day at a time, a day at a time  
Living a day at a time be the rhythm that fit

That way IÁ´m always quick to predict a glitch  
Building a house brick by brick and bit by bit  
I light a thick spliff get my wit in pitch

Now whether you spitting them dope rhymes.  
Or working the coalmine  
Or sniffing them coke lines  
Or sleeping the whole time  
Breeding or killing  
Walking the narrow road or sinning  
Losing or winning  
The earthÁ´s still spinning the whole time.
