#### Verse 1

If I don't follow my heart imma never make it Red a  
Escape the hate, now I get away quick I have a dream, I  
Forever chase it whenever the bass hits, I'm levitating  
I had a revelation my life a just drag if I never take  
Risks got to move on, the dude is too strong to ever  
Let you get in my way kid so do you and let me do me  
It's not the cool, the lewd or these groupies not the  
New shoes, getting in for free I could make a boom-  
bap  
Rap symphony but the beat's too hot to hold, I got to  
Drop it leap through obstacles, I got no options  
Juggernaut, better cop my stop never knock what you  
can  
Not top.

#### Chorus

They try to hold me back I won't fall for that nothing  
Gone hold me back be you, let me do me they try to  
stop  
My shine I block them off my mind Stand tall, mama  
told  
Me that and never let them hold me back, so let's go

#### Verse 2

If it feels good and bumping hard, then it's probably  
Red & Camoflage, we gone run the street, the club, the  
Charts and double R is the entourage now some of  
them

Thought the drumming had paused then I hit em, I hit  
em  
So double your guards now living condition, been  
Struggling hard but I'm ridding the cynicism, I got  
Love in my heart so you see me, you better move back  
Quick mind your step before your loot vanish trying to  
Mess with Reddy, dude that's it I'm trying my best not  
Getting too graphic, but I made a dream from make

Believe whatever you say don't mean a damned thing  
to  
Me, bro let me go, never hold me back and let it rock,  
Let it roll, mama told me that.

Chorus

They try to hold me back I won't fall for that nothing  
Gone hold me back be you, let me do me they try to  
stop  
My shine I block them off my mind Stand tall, mama  
told  
Me that stand tall, mama told me that They try to hold  
Me back I won't fall for that nothing gone hold me back  
Be you, let me do me they try to stop my shine I block  
Them off my mind Stand tall, mama told me that and  
Never let them hold me back, so let's go
