#### Verse 1

It's Red and Camoflage, you know you love it I  
Understood hate so I rose above it my eyes on  
tomorrow  
Keep my motor running leave it to the next man to play  
The posing puppet we all know it's coming, the ocean's  
Flooding Imma surf my way home cus my soul is  
covered  
And if it aint so, let the devil know I'm coming get  
Him slain, Red he aint never been known for bluffing  
Now I was dro puffing, lots of alcohol guzzling I beat  
The habit with a bat, I'm Al Capone cousin I pull a  
Rabbit out my hat when I'm flow busting my bag's  
Already packed, I'm gone, so long suckers see what I  
Mean? then act like you know something's wrong, the  
Whole globe's controlled by more profit see I'm cold  
Blooded, leaving microphones busted it's all about the  
Road I roam so I don't rush it

#### Chorus

Move it along, move it along move it along kid, just  
Move it along nothing to see here so move it along  
move  
It along... , move it along Don't worry yourself, I got  
This I love it too much to stop it don't worry yourself  
I got this new and improved Hip Hop

#### Verse 2

Now the world got Red driven so I got a flipped vision  
And Imma just stick with it, they thought I would quit  
Spitting slim and big women, not taking no shit women  
Shaking, they shaking almost breaking their hips,  
women  
Let me get a quick zip and I'm on to the next flowing  
Soon as Red's showing suggest that you get going I'll

Be stick walking, until my legs' broken it's Lil Red  
Bitch!, when I spit I depress poets living in this

Moment, tomorrow is not promised it's a cold world but  
I'm causing a hot climate Red and Camouflage, rhythm  
Phenomenon steadily bombing on, never on R&R, no!  
we  
Keep doing it, doing it, yea we're doing it they went  
From booing to moving so we're pursuing it man I'm  
Manoeuvring through brand new land do what I want  
while  
You do what you can

#### Chorus

Move it along, move it along move it along kid, just  
Move it along nothing to see here so move it along  
move  
It along... , move it along Don't worry yourself, I got  
This I love it too much to stop it don't worry yourself  
I got this new and improved Hip Hop

#### Verse 3

Need I repeat it? R.E.D's the key threat what you se's  
What you get I don't keep no secrets fatigue I beat it,  
Defeat the steepness I climb, trying to shine, it's  
Time to sneak in and get mine it don't affect yours  
It's my world, my life Red's the boss killing the  
Negative feelings and moving on red is a villain so  
Better you move along

#### Chorus

Move it along, move it along move it along kid, just  
Move it along nothing to see here so move it along  
move  
It along... , move it along Don't worry yourself, I got  
This I love it too much to stop it don't worry yourself  
I got this new and improved Hip Hop
