#### Verse 1

Tip top of the morning another day another toppa  
Recording touring no time for snoring my life's a lot  
Of things but it sure aint boring 24 and 7 I'm calling  
The shots imma rock til heaven is falling king of the  
Hill like Lauren make beats, then I rap then I sing my  
Chorus It's my day flossing, my day bossing, no  
pausing  
Until I'm in a coffin trying to make a little sense in  
A world distorted you hate lil Red cus your girl adore  
Him how many bars? seems I got like 4 left just about  
Enough for me to brag some more and break every  
door  
In, roaring: all in! I'd be lying if I didn't say I  
Want some more man

#### Chorus

Do what I got to do for me to get by 24/7 and 365 cus  
Everybody wants a piece of the pie get your hands out  
Your pockets reach for the sky get them high

#### Verse 2

I won't wait til summer comes, I'm back to claim heat  
Get what I want, can't stack no daydreams so I hustle  
Some, I came to scheme if your life been troublesome  
Then we're on the same team you can't change me,  
chain  
Me or cage me if I can't breathe I break free my task  
May seem type insane, well maybe it's half and half  
  
Crazy/bravery he's AA why he talk like that?, RR why he  
Walk like that?, cus I see why cus life aint passing  
Me by I reach for the sky, get my piece of the pie and  
All I want is to be free til I die I've crawled, I've  
Walked don't need a reason to fly so get em, go on  
get,  
Get em (get em high) I keep hope alive no I wont let it  
(Let it die! )

### Chorus

Do what I got to do for me to get by 24/7 and 365 cus  
Everybody wants a piece of the pie get your hands out  
Your pockets reach for the sky get them high

### Verse 3

See I don't preach, I practice it goes: if I eat then  
You eat and that's it best believe Imma meet each  
Challenge believe lil Red keep at it weak rappers now I  
Life these standards so now they're saying he a sneaky  
Bastard and though the snow goes knee deep, no  
adapting  
Cus the beat sound like I'm on a beach relaxing

### Chorus

Do what I got to do for me to get by 24/7 and 365 cus  
Everybody wants a piece of the pie get your hands out  
Your pockets reach for the sky get them high
