My tired face looking out the window / My sins go way
back so I hope God's
payback begins slow / Had it with bimbos / in pink mink
coats, trying to be
blingo / Guys who stress code dress codes, looking like
dildos / I ain't
good, I ain't bad people / I battle evil / so I need the fast
life like I
need a smack needle / Strange how the dark side
attracts me, too / They try
me, and bribe me, but then tax me, too / Through my
eyes the world look like
a mad zoo / Love got cancelled / while hate got
advanced and improved / I'm
short and skinny / so bad move, having this bad
attitude / Probably why I
lost my front teeth on the avenue

You don't wanna let 'em get ya head down
Rock your boat but you ain't gwan drown
You stand strong on ya own two
Never let them asshole control you

Keep ya standard high don't ever let them break ya
spirit no.
'Cos every chance they gwan get they gwan try to
steal ya soul.
Put on ya x-ray vision and y'all see that everything dat
glitter ain't gold.
You inna crossroad, but you gwan keep ya fire burning
it won't get cold

These last past few weeks / barely have money to eat /
Too much heavy shit
on my mind to sleep / Steadily trying seek / a way to
make ends meet / My
weary feet / got me locked up inna dead-end street /
Life got me fucked up
on liquor and weed / staying sober sort a tricky for me /
Don't really fit
in this week / I'm paranoid my imagination as sick as

can be / but Iâ€™m
hard-headed my force field is heavy like bricks be/ So
if you talking shit
about me? Iâ€™m like go for it / But why when my ass is
around you got your
nose in it? / Mind your own business and wipe / that
stupid grin off your
face / you mad fake / I can tell by your handshake /
Donâ€™t need the whole
world / only need what a simple man crave / If I canâ€™t
have it I am starting
a rampage and itâ€™s on / â€™til I canâ€™t stand straight /
Need a new landscape /
The whole world be moving at a too fast pace / Ain't got
a last ace up my
sleeve for getting through this / Iâ€™m a long way from a
genius, but Iâ€™m even
further from stupid / Mental scars and bruises is hard
to cope with / You
know this, of course, if your home is broken / I canâ€™t
say I believe in God
so itâ€™s odd and hard to pray/ I do believe in demons,
though, so itâ€™s hard
to say/ Just want a calm day to calm me / down the
sound in my heart stay
saying itâ€™ll be ok.

You donâ€™t wanna let â€™em get ya head down
Rock your boat but you ainâ€™t gwann drown
You stand strong on ya own two
Never let them asshole control you

Hell a be froze over
Before I be walking around with cold shoulders
I fear no longer
No no, â€™cos Iâ€™ve grown stronger
