Good morning
is what she said
sweet candy
before we get out of bed
good lovin'Â'
to brighten up the day
just a little something
to get you on your way
chorus:
it's a beautiful life
when you love another
it's a beautiful life
when you rediscover
it's a pleasant surprise
when you open your eyes
and it feels like the first time
it's a beautiful
it's a beautiful life
cool cool water
is running over me
sweet sister
you bring me to my knees
and I'll keep dreaming of you
and all that you do to me
chorus
repeat first verse
