Will i land
and come down from the clouds
put my feet on the ground
step out of this dream
home seems so far away
from where I am today
and i don't care what people say
i'm just living day to day
chorus:
'cause i'm stoned
stoned beautiful
don't you know that i'm
stoned, stoned beautiful
you and your simple ways
in our delicate days of youth
your words, the way they hit the air
the way you just don't care
and when the morning light arrives
i will hold you by my side
by my side
chorus
