She came to me with the summer  
whispering gently  
hello'.  
She looked like she was a star fallen down from the  
sky.  
I can remember her kisses  
we didn't say a word.  
Time was so precious to me and to my Julie.  
Julie  
Julie  
my happiness was just a moment of time.  
Summer is time for all lovers  
beautiful month called July.  
When you can feel love in the air  
there by the seaside.  
It was too good to last longer like any good thing in life.  
Night passed so quickly for me and for my Julie.  
Julie  
Julie  
my happiness was just a moment of time.  
Walking alone in the moonlight  
hearing the wind by the sea.  
I am not sure was it real or just a dream.  
Numbering my lonely hours  
waiting for luly ta cams.  
Gazin' at flickering stars to find my Julie  
Julie  
Julie.  
Julie  
Julie  
my happiness was just a moment of time.  
Oh  
my Julie.
