Running through my heart once more
Starting fires at every door
Light I never tried to hide
But they still want to pick a side
It's the same thing twice
I don't care who's wrong, who's right
I don't want to know
You were never there at all
Why should you be making calls
Someone thinks she knows it all
But she is winter, I am fall
Critic keep me on the run
Bored with what should make you bummed
Wishful for the path I'm on
I close my eyes and you are gone
