Tired of waiting bored with yourself
Calls for a little extra help
Making an entrance stealing the show
Focused and you cannot let go
Then you take that hand
Satisfy demand
Leave em full on doubt
That's not what you're about
When she(he or I) get in the way
Remember what they say
You're no one 'till someone loves you
Forced expectation serves as the glue
For someone who looked just like you
Two hearts are melded reflexes dull
Death to the individual
I had a purpose
Sometimes I forget
And I will retire but not just yet
