Can't you hear them raving?
Those crazy dogs all around of you
Exchanging heart for pain

All those worlds that are seen
As reality
Excite, excite, excite your mind

psyco modes or baby pose
all that stuff been around of you
what a lonesome trade

all exposed or never known
are you listenin' ?
they excite, excite, excite your mind

...

Can't you hear them barely?
Haunting thoughts all around of you
Will they help your dime?

Now you're headed for a new trip
will you miss me...
