Sometimes someplace has something right
It's been nine years that we've been tryin'
Your liquid tension had made us crawl
Your hidden power had made us small
But brilliant beauty from your eyes
A brilliant beauty in your eyes

Sometimes we waste some precious time
Can't see the footsteps back on the line
Long distance journey to test your fire
Long foggy daytrip for us to shine
But brilliant beauty from your eyes
A brilliant beauty in your eyes
Our brilliant beauty
A brilliant beauty
