Pick up your camera
And take a real
Good picture of my face
The digital era
Makes me great

Morning is shining bright
The weather's fine
Me I'm on the chair
Virtually safe

She's singin' the blues
Into your shoes
Singin' the blues
She's dancin' the blues
Onto your shoes
Dancin' the blues

Went to the movie then
Saw a man
Yelling on the screen
Everything lies
On huge mistakes

He was to die at last
And once again
The trick reveals its sense
It's in the middle
We must stand

She's singin' the blues
Into your shoes
Singin' the blues
She's dancin' the blues
Onto your shoes
Dancin' the blues
