He got real depressed
For what goes in his head
"White noise" brought him down
He can't escape the sound
Of the danger

Heaven took the blame (be quiet)
Mary came to stay (my dear)
Though she had to run (you're not alone)
His loneliness'd begun (so have no fear)
She's the baby oppure (I'm the baby)

Oh morning sky
Though we ain't familiar
Morning light
I'm beggin' you to
Stay
"Time is on our side" (you lie)
A bad joke or a lie (my dear)
White noise still around (it's no surprise)
You clearly hear the sound (we're shedding tears)
He's not a stranger oppure (I'm not a stranger)

Oh morning sky
Though we ain't familiar
Morning light
I'm beggin' you to
Stay
