Surroundings do not define you  
Against indolence, all things are relative (things are  
relative... relative)  
Only actions can speak truth  
You define what you perceive

You control what happens next  
Will it be what you expect?  
You control what happens next  
And will it be what you expect?

There's no scapegoat, shift the focus  
There's no scapegoat, shift the focus  
Shift the focus, there's no scapegoat  
Shift the focus, there's no scapegoat  
Shift the focus, there's no scapegoat  
Shift the focus

Surroundings do not define you. Only actions can  
speak truth  
Surroundings do not define you. Only actions can  
speak truth  
Don't throw it, don't throw it away.  
Don't throw it, don't throw it away.  
Don't throw it, don't throw it away.

Surroundings do not define you  
Against indolence, all things are relative (things are  
relative... relative)  
Only actions can speak truth  
You define what you perceive  
(Perception and environment go hand in hand)

It's not a gambit if it's all that you want  
It's just a damn shame when it doesn't work out  
It's not a gambit if it's all that you want  
It's just a damn shame when it falls apart  
It's not a gambit if it's all that you want.  
It's just a damn shame when it work

Nothing that I could do could save yourself from your  
future.

You manifested this existence  
Now find the will to endure. Find the will to endure.  
Find the will to endure.  
Find the will to endure.  
Find the will to endure.  
Find the will to endure.

Surroundings do not define you  
Pilot your fate through tomorrow's shade  
Only actions can speak truth  
Pilot your fate through tomorrow's shade

You control what happens next, will it be what you  
expect  
There is no scapegoat.  
Thoughts dictate reality.  
Thoughts dictate reality.  
Thoughts dictate reality.  
Thoughts dictate reality.
