My dear acquaintance it's so good to know you
The strength of your had that is loving and giving
And happy new year with love overflowing
With joy in our hearts for the blessed new year

Raise your glass and we'll have a cheer
For us all who are gathered here
And a happy new year to all that is living
To all that is gentle kind and forgiving
Raise your glass and we'll have a cheer
My dear acquaintance a happy new year

All of those who are hither and yonder
With love in our hearts we grow fonder and fonder
Hail to those whom we hold so dear
And hail to those who are gathered here
And a happy new to all that is living
To all that is gentle young and forgiving
Raise your glass and we'll have a cheer
My dear acquaintance a happy new year

Happy New Year
