I just wanna fuck some shit up
Stare at the wall and then close it off
Dear god it's more than enough
To get by and survive

You know there's so many fucking pigs and cops
Getting around out on my town
Pull my t-shirt over my head
You will never drag me down no
No no

Now don't you do now what they say
When they try to make you act their way
Use your time to chew your hair
You try to make a change and kick them fair

Yeah i can't keep on...
Robbing hoes down at the shopping mall
I don't need it like another ride
...slide no
No no

I just wanna fuck some shit up
Stare at the wall and then close it off
Dear god it's more than enough
To get by and survive

You know there's so many fucking pigs and cops
Getting around out on my town
Pull my t-shirt over my head
You will never drag me down no
No no
