Social disaster sad young bastard  
Used to feel alone cos i didn't get plastered  
But i'm past it though i still ask it:  
How long is this shit going to last?

It doesn't get me down like it used to  
Cos now i'm used to  
Hanging with a drugged crew  
A select fucked few  
That i speak shit to  
When i'm in the mood to  
Mingle at the venue

Gotta get fucked up  
Just to get the guts up  
Reality shuts up  
Now you can throw your butts up  
I'll be the poor straight fuck in the corner  
Chewing on his tongue in the cigarette sauna

Nothing but a social disaster

Damn i feel i should be drinking  
This is not the place to be thinking  
I'm here for the music cos it sounds wicked  
Lyric plus melody but i can't pick it

Ringin' in the ear pain getting belligerent  
Smelling like a beer stain smoking a cigarette  
Having a good time is giving me illness  
Think i'll head outside and soak up some stillness

Not that i'm jaded  
Just unrelated to this inebriated  
Ego inflated culture  
That you love don't ya?  
Well don't ya? ha?

I'm a tall poppy so you better lop me  
Held me like a baby then go and drop me  
You say i sound like this i sound like that

I sound like whoever at the drop of a hat

I'm sorry i'm generic just grin and bear it  
Spend it if you can spare it  
Strap it on and wear it  
Purchase a credo that doesn't have to last  
Supplement your ego with this piece of plastic

Ethical crisis? here's good advice says:  
Sell your sorry soul and get a nice price for it  
Now that it's done let's have some fun  
That's the priority a number one

A number one  
Ain't nothing but a social disaster (x3)
