Gimme love gimme good good times
Here in suburbia the best you can buy
This is my home i keep my family inside
Im late for work now honey i got to fly
He's superstraight yeah he's superstraight
I push my big sedan through the traffic jam
Like salmon spawning to get into a can
I sing along to the pop radio
It's propaganda but i know how it goes
You know i work all day and im out of my mind
I go man, im only human man i gotta unwind
I love my baby yeah she's number one
Work girl means nothin i just bang her for fun
And when the weekend comes it's time for my drugs
I suck em down count it two by one
Help me remember to forget who i am
And when it's over babe
That's when it starts up again
