Can't decide, for who am I?
Don't penetrate my thinking
All has changed, I've broken the chains
This ship of fools is sinking

Am I inside this tortured mind?
A new life is emerging
Seems so unreal, I'll never feel
Normality returning

Time just slips away

Melt away, an unbalanced state
Goodbye to moral living
Frozen time, I walk the line
To reach a new beginning

Land of dreams or so it seems
I love this brain pollution
Just to show I've no control
Amid this much confusion

Time just slips away

Open mind sensation
Feel it kicking in
Open mind sensation
Feel the madness begin

Beyond the bounds of memory
Beyond the bounds of memory

See things all my way
Feelings torn away
See things all my way
Nothing stays the same
See things all my way
Feelings torn away
See things all my way
Time to face the change

Take me, alone, these things I've never known
Take me, alone, through doors of fear
Take me, away, new place where I can stay
Take me, away, where everything is clear
Take me, alone, these things I've never known
Take me, alone, through doors of fear

Experiencing the open mind sensation
Reach (...)
Call beyond the bounds of memory
(...)

Can't decide, for who am I?
Don't penetrate my thinking
All has changed, I've broken the chains
This ship of fools is sinking

Am I inside this tortured mind?
A new life is emerging
Seems so unreal, I'll never feel
Normality returning

Time just slips away

Open mind sensation
Feel it kicking in
Open mind sensation
Feel the madness begin

Beyond the bounds of memory
Beyond the bounds of memory
