"The Pedophile's Odour"

Visit "[The Pedophile's Odour](#)" on MotoLyrics.com

Gloomy parts of the day
Overtakes your confused mind
And terrifying you causes silent panic and fear
Of disgusting pain caused by lustful man's organs
With blood-stained parts of pulled out vagina
With visible semen of evil

Gaze of a person excited by scent of a young
Helpless and not yet scored pussy
Pierces you in every moment in which you think
What he can do to you
You innocent and yet unformed body
Releases euphoria in him

Unwanted by your mind experience
Is closer cause his slimy tongue
Causes that you feel something unknown
That can't e compared even to a wonder
Sides of your vagina are being jostled
By his shoved in penis
Stop crying and panicking

Can you hear pedophile's laughter *[4 times]*
Can you feel him inside [4 times]
